# Safety Precautions

## WARNING

RISK OF ELECTRIC SHOCK  
DO NOT OPEN

**WARNING:** TO REDUCE THE RISK OF ELECTRIC SHOCK,  
DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE.  
REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

## Important Safeguards

### 1. Read Instructions

All the safety and operating instructions should be read before the appliance is operated.

### 2. Retain Instructions

The safety and operating instructions should be retained for future reference.

### 3. Cleaning

Unplug this equipment from the wall outlet before cleaning it. Do not use liquid aerosol cleaners. Use a damp soft cloth for cleaning.

### 4. Attachments

Never add any attachments and/or equipment without the approval of the manufacturer as such additions may result in the risk of fire, electric shock or other personal injury.

### 5. Water and/or Moisture

Do not use this equipment near water or in contact with water.

### 6. Placing and Accessories

Do not place this equipment on an wall or ceiling that is not strong enough to sustain the camera. The equipment may fall, causing serious injury to a child or adult, and serious damage to the equipment. Wall or shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer.

This equipment and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the equipment and cart combination to overturn.

Do not place this equipment in an enclosed space. Sufficient ventilation is required to prevent an increase in ambient temperature which can cause malfunction or the risk of fire.

### 7. Power Sources

This equipment should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power, please consult your equipment dealer or local power company.

You may want to install a UPS (Uninterruptible Power Supply) system for safe operation in order to prevent damage caused by an unexpected power stoppage. Any questions concerning UPS, consult your UPS retailer.

This equipment should be remain readily operable.

### 8. Power Cord

Operator or installer must remove power and TNT connections before handling the equipment.

### 9. Lightning

For added protection for this equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the equipment due to lightning and power-line surges. If thunder or lightning is common where the equipment is installed, use a surge protection device.

### 10. Overloading

Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.

### 11. Objects and Liquids

Never push objects of any kind through openings of this equipment as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the equipment.

### 12. Servicing

Do not attempt to service this equipment yourself. Refer all servicing to qualified service personnel.

### 13. Damage requiring Service

Unplug this equipment from the wall outlet and refer servicing to qualified service personnel under the following conditions:

- When the power-supply cord or the plug has been damaged.
- If liquid is spilled, or objects have hit the equipment.
- If the equipment has been exposed to rain or water.
- If the equipment does not operate normally by following the operating instructions, adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the equipment to its normal operation.
- If the equipment has been dropped, or the cabinet damaged.
- If the equipment exhibits a distinct change in performance — this indicates a need for service.

### 14. Replacement Parts

When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.

### 15. Safety Check

Upon completion of any service or repairs to this equipment, ask the service technician to perform safety checks to determine that the equipment is in proper operating condition.

### 16. Field Installation

This installation should be made by a qualified service person and should conform to all local codes.

### 17. Correct Batteries

Warning: Risk of explosion if battery is replaced by an incorrect type. Replace only with the same or equivalent type. Dispose of used batteries according to the instructions. The battery shall not be exposed to excessive heat such as sunshine, fire or the like.

### 18. Tmra

A manufacturer's maximum recommended ambient temperature (Tmra) for the equipment must be specified so that the customer and installer may determine a suitable maximum operating environment for the equipment.

# FCC Compliance Statement

THIS EQUIPMENT HAS BEEN TESTED AND FOUND TO COMPLY WITH THE LIMITS FOR A CLASS A DIGITAL DEVICE, PURSUANT TO PART 15 OF THE FCC RULES. THESE LIMITS ARE DESIGNED TO PROVIDE REASONABLE PROTECTION AGAINST HARMFUL INTERFERENCE WHEN THE EQUIPMENT IS OPERATED IN A COMMERCIAL ENVIRONMENT. THIS EQUIPMENT GENERATES, USES, AND CAN RADIATE RADIO FREQUENCY ENERGY AND IF NOT INSTALLED AND USED IN ACCORDANCE WITH THE INSTRUCTION MANUAL, MAY CAUSE HARMFUL INTERFERENCE TO RADIO COMMUNICATIONS. OPERATION OF THIS EQUIPMENT IN A RESIDENTIAL AREA IS LIKELY TO CAUSE HARMFUL INTERFERENCE, IN WHICH CASE USERS WILL BE REQUIRED TO CORRECT THE INTERFERENCE AT THEIR OWN EXPENSE.

**WARNING:** CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT. THIS CLASS OF DIGITAL APPARATUS MEETS ALL REQUIREMENTS OF THE CANADIAN INTERFERENCE CAUSING EQUIPMENT REGULATIONS.

## WEEE (Waste Electrical & Electronic Equipment)

**Correct Disposal of This Product**  
(Applicable in the European Union and other European countries with separate collection systems)

This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

**Warning:** This product emits infrared light. Do not look into the IR LED.

## Accessories

Upon purchasing the product, check inside the box to make sure all the following accessories are included. Some parts may differ depending on the situation.

Item	
Network Camera	Quick Guide
Sun Shield Screw	Camera Sun Shield
Bushings (4 ea.)	Screws, Anchors (each 4 ea.)
Junction Box	Safety Wire Screw
Installation Plate	Allen Wrench
Protect Connector	Terminal Blocks (2ea.)

Please download software (IDIS Discovery, IDIS Center, IDIS Solution Suite Compact) and product manual from this link :

-Search IDIS Discovery, IDIS Center, IDIS Solution Suite Compact.

## Overview

- Product color and design may vary depending on the model.
- For more details on each part name, refer to the manual.

## Body

1	Lens	7	Sun Shield Screw Hole
2	IR LED	8	Power
3	Body	9	Network Port
4	Stand	10	Video Out (CVBS)
5	Junction Box Bracket	11	Audio In/Out
6	SD Memory Card Slot, Factory Reset Button	12	Alarm In/Out

## Camera Installation

### Inserting a SD Memory Card

- 1 Loosen the screws counterclockwise and remove the cover.

- 2 Insert a SD memory card into the SD memory card slot with the 'micro SD' print facing upward.

- Push the SD memory card until it disengages from the slot, and then pull it out.

- 3 Close the cover and tighten the screws clockwise.

- Make sure that the cover is joined properly when screwing it; otherwise, the IP67 level is not guaranteed.

## Installation

- Check the wall or ceiling to see if it needs to be reinforced. The camera may fall off if the wall or ceiling is not strong enough to support its weight.
- Install the camera in a shaded area. If the camera is installed in direct sunlight, it may be affected adversely.
- (If necessary) Attach one end of the safety wire (not provided) to the wall or ceiling, and the other end of the safety wire to the installation location on the camera body.

- 1 Remove the protrusion part from the cable rubber along the dotted line.

- 2 Insert the LAN cable through the cable rubber using the protect connector.

The use of lubricant is recommended to insert the LAN cable smoothly.

- 3 Pull the cable slightly and arrange the rubber as shown below.

If you insert a thin cable or more than two cables, it is advised to finish by using silicon to make sure to perfectly waterproof it. (Silicon finishing part — refer to the bottom image.)

- 4 Assemble the cable rubber to the junction box.  
5 After assembling the cable rubber, connect the terminal block.  
6 Screw the installation plate to the wall or ceiling by using screws(4) and bushings(4) provided with the camera.

- 7 Screw the junction box to installation plate by using screws provided with the camera.

- 8 Connect network camera body and junction box with the safety wire.

- 9 Connect the alarm, network and power adapter.  
10 Screw the network camera to junction box by using screws provided with the camera.  
11 Screw the camera sun shield to the camera using the screw provided with the camera.

- 12 Band the stand to adjust the camera angle accordingly. For details, refer to the **angle adjustment**.

## Angle Adjustment

- |   |                          |
|---|--------------------------|
| 1 | Vertical (Tilt) Rotation |
| 2 | Horizontal (Pan) Rotatio |
| 3 | Lens Rotation            |

## Dimensions

# Specifications

<b>Out-door Ready</b>	IP67, Heater
<b>Operating Temperature</b>	-40°C ~ 55°C (-40°F ~ 131°F)
<b>Boot Up Temperature</b>	-20°C ~ +55°C (-4°F ~ +131°F)
<b>Operating Humidity</b>	0% ~ 90%
<b>Power Source</b>	12V $\overline{\text{---}}$ , PoE(IEEE 802.3af, Class 3)
<b>Power Consumption</b>	12V $\overline{\text{---}}$ , 1.1A, 13.2W PoE, IEEE 802.3af(Class 3), 57V $\overline{\text{---}}$ , 12W
<b>Approval</b>	FCC, CE, IK10
<b>External Dimensions (W x D x H)</b>	89.3mm x 89.3mm x 307.1 mm (3.51" X 3.51" X 12.09")
<b>Weight (Main Unit)</b>	1.95kg (4.29lbs)
<b>Edge Storage* (Optional)</b>	 (micro SD/SDHC/SDXC memory card (class 6 or higher), max. 512GB)

\* An SLC (Single Level Cell) or MLC (Multi Level Cell) card by SanDisk or Transcend is recommended to ensure stable recording performance.

\* An SD memory card is a consumable product with a finite service life. Prolonged use will damage the card's memory sectors and result in data loss or memory card failure. Test the SD memory card regularly and replace it whenever necessary.
